

When a construction contractor permanently affixes tangible personal property to real property, the contractor is deemed the end user of that tangible personal property. As the end user, the contractor incurs Use Tax on the cost price of that tangible personal property. See 86 Ill. Adm. Code 130.1940 and 86 Ill. Adm. Code 130.2075. (This is a GIL.)

July 28, 2008

Dear Xxxxx:

This letter is in response to your letter dated June 9, 2008, in which you request information. The Department issues two types of letter rulings. Private Letter Rulings ("PLRs") are issued by the Department in response to specific taxpayer inquiries concerning the application of a tax statute or rule to a particular fact situation. A PLR is binding on the Department, but only as to the taxpayer who is the subject of the request for ruling and only to the extent the facts recited in the PLR are correct and complete. Persons seeking PLRs must comply with the procedures for PLRs found in the Department's regulations at 2 Ill. Adm. Code 1200.110. The purpose of a General Information Letter ("GIL") is to direct taxpayers to Department regulations or other sources of information regarding the topic about which they have inquired. A GIL is not a statement of Department policy and is not binding on the Department. See 2 Ill. Adm. Code 1200.120. You may access our website at [www.tax.illinois.gov](http://www.tax.illinois.gov) to review regulations, letter rulings and other types of information relevant to your inquiry.

The nature of your inquiry and the information you have provided require that we respond with a GIL. In your letter you have stated and made inquiry as follows:

The purpose of this memo is to detail the normal business transactions to be performed by LLC to determine the State sales tax applicability on the goods and services provided.

LLC will be doing business as ABC. The revenue received will be from the sales and installation of Closet, Garage, Pantry and Home Office organization products. The business is home based and actual sales calls will be made at the customers [sic] residence.

LLC will purchase materials from a vendor located out of state and product will [sic] shipped to warehouse in Illinois.

Upon receiving the materials from vendor, LLC will install the product at customers [sic] home. All products must be secured into walls (similar to kitchen cabinets) to insure products function correctly and safely. These products should be considered a permanent addition to a residential home as they are custom fit to each specific home needs and cannot be easily altered to fit different residence.

Questions:

Should I be charging a sales tax?

Should I be self assessing a use tax?

Please contact me with any questions.

#### **DEPARTMENT'S RESPONSE:**

A contract to incorporate tangible personal property into real property is considered a construction contract. The tax liabilities regarding construction contractors in Illinois may be found at 86 Ill. Adm. Code 130.1940 and 130.2075 on the Department's Internet website. The term construction contractor includes general contractors, subcontractors, and specialized contractors such as landscape contractors.

In Illinois, construction contractors are deemed end users of tangible personal property purchased for incorporation into real property. As end users of such tangible personal property, these contractors incur Use Tax liability for such purchases based upon their cost price of the tangible personal property. See 86 Ill. Adm. Code 130.1940 and 86 Ill. Adm. Code 130.2075.

Therefore, any tangible personal property that a construction contractor purchases that will be permanently affixed to or incorporated into real property in this State will be subject to Use Tax. If such contractors did not pay the Use Tax liability to their suppliers, those contractors must self assess their Use Tax liability and pay it directly to the Department. If the contractors have already paid a tax in another state regarding the purchase or use of such property, they will be entitled to a credit against their Illinois Use Tax liability to the extent that they have paid tax that was properly due to another state. See 86 Ill. Adm. Code 150.310. The Illinois Use Tax rate incurred by an out-of-State construction contractor on purchases of materials from an unregistered supplier located outside of this State is generally 6.25% as described in subsection (c) of Section 130.2075.

It is important to note that since construction contractors are the end users of the materials that they permanently affix to real estate, their customers incur no Use Tax liability and the construction contractors have no legal authority to collect the Use Tax from their customers. However, many construction contractors pass on the amount of their Use Tax liabilities to customers in the form of higher prices or by including provisions in their contracts that require customers to "reimburse" the construction contractor for his or her tax liability. Please note that this reimbursement cannot be billed to a customer as "sales tax," but can be listed on a bill as a reimbursement of tax. The choice of whether a construction contractor requires a tax reimbursement from the customer or merely raises his or her price is a business decision on the construction contractor's part.

I hope this information is helpful. If you require additional information, please visit our website at [www.tax.illinois.gov](http://www.tax.illinois.gov) or contact the Department's Taxpayer Information Division at (217) 782-3336. If you are not under audit and you wish to obtain a binding PLR regarding your factual situation, please submit a request conforming to the requirements of 2 Ill. Adm. Code 1200.110 (b).

Very truly yours,

Richard S. Wolters

Associate Counsel
